RE: SOFTWARE DEVELOPMENT SCHOLARSHIP

Dear Sir/Madam,

I am writing to you to submit my application for a scholarship to Moringa School for the six month course on software development starting May 2021.

I am interested in the field of software, getting to learn and build tech. It has been my ambition to attend the school and progress into a computing career for many years.

There have been changes in my family's income and unexpected expenses that have caused a financial deficit, it is pretty hard for my parents to get me to school.

I have been an active part of the community outside of the academic curriculum, including playing basketball and swimming. I am an active member of the community wherever I go and believe this attribute would be of huge benefit to Moringa School. I have always been impressed with your school's scholarship program and hope that this could offer me a lifeline to still attend your university. I intend to work in employment to improve my circumstances and study while my family goes through this difficult time.

Thank you for your consideration. If you require any further information on my application, please do not hesitate to get in touch.

Thanks for your time on this matter.

Kind Regards,

Larvine Moraa Asande.
